			PPP
--	--	--	-----

**Future plugin compatibility workarounds**

			PPP
--	--	--	-----

**Import Scripts**

- from Role Scoper
- from Press Permit 0.x / 1.x

			PPI
--	--	--	-----

			PPI
--	--	--	-----

**notes**

- \* = memory usage with PP, PP Back-End, PP File Filtering activated
- \*\* = memory usage with Core, PPCE, PPFF, PPM, PPP, PPS activated
- \*\*\* = via group membership date limits, not imported
- \*\*\*\* = requires custom code in functions.php (sample code provided)
- \*\*\*\*\* = replaced with Exceptions model; most settings can be imported
